Mr. Harold Wiseberg
Hyattstown, Maryland.

Dear Sir:

Enclosed $5.00 please send me your latest book; Whitewash II. I heard you on the night of Dec. 13th on Radio Station WBBM Chicago, on the Jerry Williams Show. I heard most all of the interview, and it was most interesting and informative. I believe you are sincere, and you have done a lot of hard work in presenting these facts, perhaps tho you might make a fast buck or two as one listener intimated. As far as I am concerned you are entitled to make a buck or two - make all you can, this still is America.

I am very interested in the Kennedy

assassination. I truly believe there is much more than meets the eye. I dont believe all the truth has been told the public, and I believe the American public are mature enough to handle the truth, and able to take all the facts that are laid before us. I believe in the near future, the truth will come to the surface.

Have you read the little book written by Mervin Bealle, "Jury of the Regressive Right" If you have would you care to reveal your thoughts on this aspect. So far to my knowledge, this side of the story has not been revealed to the public. Of course I have not read the Warren Report, but I believe the truth in this document has been cleverly concealed.

I have written all of my Congressmen from Ark. Concerning this book and they all said they had not read the little book.

More power to you

Sincerely W J Wells
